first a patrolman, then a sergeant of the R. N. W. M. P. at Macleod, Alberta. He was born in Ireland forty-six years ago.

## NEWS OF THE SOUTH SIDE

SOUTH SIDE RATES  
SAME AS THE NORTH

In a recommendation of the waterworks department, yesterday submitted recommendations to the city commission regarding the water rates for the coming year, beginning May 1.

Superintendent Maclean, of the waterworks department, yesterday submitted recommendations to the city commission regarding the water rates for the coming year, beginning May 1. He recommends that the flat rate should remain as before and be made applicable on both sides of the river, since Strathcona has become a part of the city. Until the waterworks system has been established, he believes the present flat rate is not equitable as such a rate can be paid in one place and not in another. He would change the water rates from a quarterly to a monthly basis.

On the question of frontage rate, Superintendent Maclean recommends that it be raised from a cent per foot to a cent and a half. He would change the water rates from a quarterly to a monthly basis. Superintendent Maclean believes the discount of ten per cent allowed if paid within ten days from rendering of the bill should continue in force until such time as the waterworks department deficit be wiped out, but he made subject to alteration at any period, after due notice from the city commissioners so that in the event of reduction in the cost of pumping, and a consequent increase in the net revenue, on the positive side, the city may derive the benefit in the form of increased discount on their water rates. He points out that the increased discount would also be an encouragement to prompt payment, a form of increased discount on their collection.

Rates for Yard Taps. Superintendent Maclean further recommends that yard taps be rated at a minimum charge of \$5 per year. He also recommends that the water rates be advanced subject to the usual discount, and if the owner of such tap permits other persons to take water from his tap, the owner shall pay \$5 per annum in advance for each and every person using such tap. Where the yard taps are used for other purposes than for the water rates provided by the schedule accompanying his recommendations. The schedule raises the rate at 25 cents per 100 cubic feet and the minimum charge at \$1 per month, with the customary ratio of rates for a larger consumption. The commissioners deferred action on the recommendations. They may make the matter up today.

## SOUTH SIDE POLICE COURT.

Magistrate Downes had a very busy day Tuesday in the South side police court. There were many cases before him, and he was kept busy from morning till night.

The first case was that of Robert Hayward, charged with taking a piece of bacon and selling it without payment to Galters Ltd. He was fined \$10 and costs. He was not a night watchman. He was defended by W. W. Mills and entered the plea of not guilty, but admitting he sold the bacon without intention of keeping or converting to his own use.

Detective Wm. McIntyre and Watson were the witnesses for the prosecution. By pretending to the night watchman, that they were in need of the night watchman in the morning they tempted him to sell them some bacon for \$1. They did not really want the bacon but were setting a trap to catch him. Mr. Mills cross-examined Maclean. Mr. Mills cross-examined Maclean. Mr. Mills cross-examined Maclean.

McIntyre admitted giving the night watchman some whisky in addition to the \$1 for the bacon. They also stated that the watchman in parting said, "Mum is the word."

Early on another morning Watson and McIntyre were in the house of the night watchman. They were in the house of the night watchman. They were in the house of the night watchman. They were in the house of the night watchman.

This case was laid on falsehood and deception practiced in order to get a portion of the money. Detective McIntyre spoke for the prosecution. "We had to frame up a scheme to get our money."

Magistrate Downes said he did not see how the detective could have done anything else. He was not a night watchman. He was defended by W. W. Mills and entered the plea of not guilty, but admitting he sold the bacon without intention of keeping or converting to his own use.

Those Slippery Winks. The case against Charles Johnson for assaulting Constable R. R. McMillan was dismissed. From the evidence given by the defense they claimed it was caused by an accidental fall on the slippery sidewalk, causing Campbell to bump against Johnson.

Capt. Thompson showed considerable legal ability in the handling of the case. He was not a night watchman. He was defended by W. W. Mills and entered the plea of not guilty, but admitting he sold the bacon without intention of keeping or converting to his own use.

Jack Mills acted for the defense and pleaded plausible explanations. He was not a night watchman. He was defended by W. W. Mills and entered the plea of not guilty, but admitting he sold the bacon without intention of keeping or converting to his own use.

Edward Noel, charged with assault on a woman, was found guilty. He was not a night watchman. He was defended by W. W. Mills and entered the plea of not guilty, but admitting he sold the bacon without intention of keeping or converting to his own use.

At the University. The weekly meeting of the C. O. U. Agricultural Union on Saturday night will take the form of a debate upon the subject, "Resolved, that coeducation in the higher schools is a mistake."

The speaker will be as follows: Affirmative, Messrs. Drysdale, K. G. and W. W. Mills. Negative, Messrs. Wm. McIntyre and Watson. The debate will be thrown open for discussion.

The general executive of the Freshman Debating Club will be present at a meeting of the club on Monday afternoon to discuss a number of the constitution and to elect officers. The club will be thrown open for discussion.

The auditorium of Alberta College has been secured for a debate on the subject of "Resolved, that coeducation in the higher schools is a mistake."

The general executive of the Freshman Debating Club will be present at a meeting of the club on Monday afternoon to discuss a number of the constitution and to elect officers. The club will be thrown open for discussion.

THURSDAY, MARCH 7, 1912.

If things go on, the only survivors of the Boyce-Snead feud will be the parties whose actions started the feud.

The Glasgow probe diggers have gone on strike as a protest against the high cost of living. Is it not about time society in general went on strike against the high cost of dying?

Alderman May is on the right track in moving for information regarding the purchase of land by the city. The rate-payers have a right to know what land has been bought and how much they are to pay for it.

The Calgary Herald enlightens its readers with the news that prior to September 21st Hon. Frank Oliver was a member of the Liberal government, and adds the remarkable fact that "during most of this time he was a minister of the crown." The Herald's "drunken sailor" seems to have got home again.

A band of medical students smashed the windows of the suffragettes' headquarters in London. The suffragettes will not be able to appeal to either law or public sympathy with consistency. Those who have windows to be smashed should not start throwing stones.

That small fraction of society commonly known as the "smart set" has been receiving attention from the ministers in some of the city churches. Arrogance in that direction does not usually get to the mark, for the reason that the "set" are "smart" enough to stay away from the places where they would have themselves adversely criticized.

The United States Senate is discussing the arbitration treaty between the United States, Great Britain and France. Those treaties are held to constitute the most radical step yet taken by a combination of first powers to secure permanent peace among themselves. They are understood as binding the three nations to submit to arbitration disputes of all kinds, including the fixing of boundaries between possessions and questions in which is involved "national honor" is involved. With these sources of antagonism closed, there would not remain many things about which any two of the three nations concerned would ever be likely to want to fight each other.

Under the arrangement for extending its boundaries Manitoba does not get control of the land situated in the territory which is to be added to the Province. On the other hand, Manitoba is not even allowed to keep the land it now owns within the boundaries of the old province. In the settlement of 1855 Manitoba was given the swamp lands and some of the prairie. Those the province is now required to surrender to the Dominion, and in lieu of them and of the land in the newly annexed territory the province will receive a cash subsidy. From this it is not perceptible that Mr. Borden is making much headway toward redeeming his promise to turn over the lands to the governments of the various provinces. So far the sole accomplishment in this connection has been to take from the only prairie province owning any land the land which it possessed.

## A VICTORY FOR THE PUBLIC

In forcing the Government to consent to place before Parliament the evidence that is to be gathered by the tariff commission, the Opposition have won a victory for the public and of great importance. It was the purpose of the Ministers that this information should be known only to the commissioners and themselves. Under the act as brought down by them for the establishment of the commission it was provided that the evidence put before that body should be made known neither to the public nor to Parliament. All that Parliament was intended to receive from the commission was a recommendation now and then that the tariff be changed, and without information or evidence as to the necessity or wisdom of the change was to be left to the public to determine whether or not it was intended to enact the recommendation into law. All the public were supposed to know was that certain changes were made in the tariff and that the commission had recommended them. Very properly, the Opposition set themselves against this sinister arrangement and declared the right of Parliament and the public to know what information the commission secured as to the working of the national taxation system. In deference to this stand taken by the Opposition this victory for the public that the Senate would refuse to countenance any such judgment put against the public rights and interest, the Government could have consented to the information which the commission gathered will be laid before Parliament.

The value of this victory to the public is to be gauged by considering what would have been the state of affairs had the Opposition failed in their duty, or had the Government dared to press it through the House of Commons and smuggled it through the Senate by some alteration in the composition of that House—such as has already been hinted at. The country would then be paying for the commission of supposed tariff experts to whom the Minister looked for guidance and advice in the alteration of the customs duties. The commission would be both secret and irresponsible. The public could not neither find out what they were doing nor get at them if they were proven a hundred times to be doing wrong. What information they secured would be known to themselves and the Ministers. What evidence was laid before them as to the growth of mergers and oppressive combines, the stifling of competition, the undue boosting of prices, and the improper depression of prices of raw material—these and kindred subjects might or might not be gone into by the commission, but nothing might be found out, and so far as the public or the members of Parliament were concerned no one would be the wiser. It might be openly acknowledged to the commission that a combine had grown up under the shelter of the tariff which squeezed the farmer on the one hand and the city man on the other, which crowded competitors out of the field, forced the public to pay dividends on watered stock—and yet the public would be paying a commission to find out just such things as these would have no glint at the information laid before the body, nor would their representatives in Parliament be allowed to look over the shoulders of the men whose salaries they were asked to vote and whose recommendations they were asked to convert into law.

If the object of this arrangement was to bleed the manufacturer for campaign funds, the scheme was an excellent one—could not, in fact, be bettered. The commission would be allowed to serve the manufacturer with all the force of the law, and the rank and file of the party in Parliament would be brought into line by some means or other. The manufacturer who had been "through" cheerfully and handsomely could be allowed to rest in peace and to fleece the public at pleasure. The one who demur-

red could be brought to time by a threat of reduction in those items of the tariff which kept foreign competitors out of his home market. The commissioners, shielded by legalized secrecy, would simply be placed under a plum tree and invited to "shake"—the product of course being introduced for the war chest of the party but who would there be to make trouble if they and their ministerial colleagues gathered in a comfortable room for coffee for the trouble of devising and working the machine? It is all very well to say that the present Ministers are honest and that the commissioners will choose well not to let it. Perhaps the door of such opportunity cannot be opened without reason warning their way towards it, and some sooner or later would be bound to get through. Whether or not it was the intention to use the commission as road agents to hold up the manufacturers in this way, never as there placed before the public, the tariff proposed is more pregnant with opportunities for official and Ministerial dishonesty, a proposal which placed such a high premium on dishonesty and which offered such absolute immunity from punishment, as this proposal that the commission do its business in a dark room. The manufacturers should be told that the tariff for public duty, as much as any other class in the community, if they have reason to apprehend the results of publicity concerning the tariff they have at least the satisfaction of knowing that they do not have to allow themselves to be plundered behind closed doors to earn the war chest of a faction or to fatten a flock of official vultures.

## THE FINANCIAL AND COMMERCIAL MARKETS

**Winnipeg Grain Market.**  
Winnipeg, March 6.—The autumnous crop of wheat is being marketed, and practically nothing doing in operation. Prices are held to be lower, and with heavy offerings and receipts and a heavy market, there was a decided depression. The country wheat market is being affected by the government's policy of restricting the export of wheat. The market is being affected by the government's policy of restricting the export of wheat. The market is being affected by the government's policy of restricting the export of wheat.

**Chicago Grain Market.**  
Chicago, March 6.—Wheat very sharply lower as a result of generous offerings and a heavy market. The market is being affected by the government's policy of restricting the export of wheat. ## HER SKIN SEEMED ON FIRE

Every Other Treatment Failed But "Fruit-a-lives" Cures

GRAND LAC, QUE., Jan. 2nd, 1910. "My wife was greatly distressed for three years with chronic Eczema of the hands, and the disease was so severe that it almost prevented her from using her hands. The doctor gave her several ointments to use, but none of them did her good. He also advised her to wear rubber gloves and she wore out three pairs without getting any benefit. As a last resort, I persuaded her to try 'Fruit-a-lives', and the effect was marvellous. Not only did 'Fruit-a-lives' entirely cure the Eczema, but the skin became soft and healthy and was also completely cured."

We both attribute our present good health to "Fruit-a-lives". N. JOUBERT. "Fruit-a-lives" will always cure Eczema or Salt Rheum because "Fruit-a-lives" purifies the blood, corrects the indigestion and constipation and tones up the Nervous System.

It is the only medicine in the world made of fruit juices and valuable tonic, and the greatest of all blood-purifying remedies. See a box—6 for 25c—or trial size, 25c. At all dealers or from Fruit-a-lives Limited, Ottawa.

**Toronto Stock Market.**  
Toronto, March 6.—The market was quiet. The market is being affected by the government's policy of restricting the export of wheat. The market is being affected by the government's policy of restricting the export of wheat. The market is being affected by the government's policy of restricting the export of wheat.

**Royal Bank Extension.**  
Lacombe, Alta., Mar. 6.—The Royal Bank has purchased from Frank McLean a lot on the corner of North Street and Hargrave Avenue. It is expected they will build this spring. The lot, which was formerly the site of the Victoria hotel, has a frontage on North Street of 100 feet and the price paid was \$47,500. The deal was put through on behalf of the bank by the bank's manager of the Lacombe branch.

**General Advertising.**  
New York, Mar. 6.—Directors of the Lake Shore and Michigan Southern Railway Company today declared an extra dividend of six per cent. An extra dividend of twelve per cent was also declared on the stock of the Pittsburg and Lake Erie Railway company.

**General Advertising.**  
The market is being affected by the government's policy of restricting the export of wheat. The market is being affected by the government's policy of restricting the export of wheat. The market is being affected by the government's policy of restricting the export of wheat.

**The Pen starts instantly & never clogs, because the colour-matter is in perfect solution.**  
The market is being affected by the government's policy of restricting the export of wheat. The market is being affected by the government's policy of restricting the export of wheat. The market is being affected by the government's policy of restricting the export of wheat.

**CHILD FELL DOWN WELL.**  
Gairford Child Saved From Drowning by Brother.

Gairford, Alta., Mar. 6.—A little girl named Dorothy Martin has been accused of having today declared the death of her brother. While playing around she fell down the well of Mr. Anderson, but her brother, who was near at hand heard her screams and promptly rescued her. The little one was gotten out safely and appeared none the worse of her adventure.

820

## Just a Wee Help to Nature

SUCH is the latest "Paris" idea of a proper corset, just to prevent the careless figure effect.

No distortion, no cramping, just the enhancing of the form divine according to the latest style of dress.

La Diva 820, shown in cut, is an entirely new

Directorate Model combining all the newest ideas and avoiding all extraneous features. It is finished in white French cotton, lined with "Wabene" silk, trimmed with Valenciennes lace. Six supports, four strings, hooks, etc. An improved corset of similar quality would cost \$7.00. Our price in all good stores is \$5.00. Other La Diva models, \$3.50 to \$5.00; every pair guaranteed to satisfy or money refunded.

## THINKS ALL LAND SHOULD FINALLY REVERT TO STATE

English Visitor Gives Opinion of the Speculation in Western Lands.

### FEARS LANDLORDISM MAY PREVAIL HERE

Says Lloyd-George is Driving British Capital Out to Canada.

"Your city has undoubtedly a great future before it," said Mr. Arthur Thatcher, of Bristol, England, in the course of an interview with the Bulletin yesterday, "but do you not think that the prices of land are a bit too high at the present time. The prices seem to me to be in advance of the development of the country, and this is caused by speculation."

However," he added, "I am not an authority, but it seems to me that the government lands have been let for a period of one hundred years and then to revert to the government there would be no danger of Canada being the cry of the British Isles against the landowners. Some day you will awake and find all your splendid wheat lands and grazing lands gone and many large tracts in the hands of capitalists."

British and foreign capital is coming into this country, and they will undoubtedly buy up land in fact; they already do so. But I think that this land would revert to the government, then this sort of speculation would be checked and the land left for the small farmer who is the real developer."

In reply to a question as to what he thought of the reports that Lloyd-George's policy is driving out British capital are true, Mr. Thatcher said: "Many people are ready at any time to become land speculators, and there are the people whose capital is leaving the country. This capital is most of it coming to Canada."

Bristol, which is Mr. Thatcher's home city, is the C. N. R. port across the Atlantic, and much money has been spent to make it a commercial metropolis. The docks and shipping facilities are of the best, and from a half of a day out to sea vessels are coming to London by train from Atlantic ports, thus avoiding the delay at that point by steamers."

### CLEARING AWAY DEBRIS FROM WRECKED BRIDGE

Temporary Bridge Being Erected—Passengers Meanwhile Cross River by Bus—Progress of the Work.

Saskatoon, Mar. 6.—Reports from the city hospital late last night were most hopeful for recovery of H. E. Asbee, commercial traveler, of this city, suffering from a fracture of the skull. He is still unconscious, but is improving.

Mrs. Asbee was delivered of a daughter but a few hours after the accident to her husband, of which, however, she was kept in ignorance. Rev. F. H. King, is also in the city hospital with a broken knee cap and other injuries. He is reported as doing well, but it will be some time before he can resume his missionary labors among the railroaders.

Mr. Fred Hocking is being cared for at the home of F. A. Blair, of H. E. Asbee's hospital. Comfort reports were received. The injured in this institution are W. H. Kiran and Mrs. D. Wallace of Regina.

The ill-fated "Kipling."

Saskatoon, Mar. 6.—Two days ago the limit set for the time which must elapse before traffic is once more allowed across the bridge. A master mechanic and bridge builders are on the scene, and work is going on day and night clearing up the debris. The first thing that was done yesterday morning was to remove the ill-fated "Kipling" from among the wreckage of the wreck of the bridge. This was accomplished with the aid of the Leducs.

It was attached to the sleeper and without a great deal of trouble the wrecked car was pulled clear of the debris. As it lay on the ground, it could hardly be seen, as it had been in at the time it was wrecked. The car had been damaged, and the side upon which it fell was cracked in an egg shell and the floor of the car was broken and driven in. A singular feature of the accident was that while the entire smelter was a mass of splinters, a large looking glass in the wall was not broken. The wrecked car where the gas tank was situated, showed the effects of the terrible heat.

### FOREIGNERS INDICTED

Montreal, Mar. 6.—Three more indictments for attempted murder against the wheels of a freight car were returned today by the grand jury. The men whom the bills were returned against are Jas. Sculio, Francesco Molteni, and Antonio Litteri. The first named is the Pole, who is charged with instigating a plot against a fellow countryman to "the other two men are Italian, who attached to a train ready to start. The victim was found early one morning shortly before the train was due to leave, beaten almost unconscious, his head tied in a sack of ashes, firmly fixed to the wheels of a freight car. The other two men are Italian, who were mixed up in two of the many railway accidents which have occurred during the past six months."

Are For Tully's Renomination.

Washington, Mar. 6.—According to an announcement made by the secretary to the President, Hill, today the seven Republican state senators of New Jersey are for the re-nomination of President Tully. The nine state-district Republican assemblymen from New Jersey, too, the announcement said, are for Tully's re-nomination, two are non-committal and one is opposed.

### Has Captain Scott Reached South Pole?

London, Mar. 6.—A rumor is published in an evening paper that Captain Robert F. Scott, British Antarctic explorer, has reached the South Pole.

### PREMIER SIFTON ON TAX REFORM IN ALBERTA

In Interview in Ottawa He Speaks Enthusiastically of the Land Tax Principle Adopted by the Legislature at Recent Session.

Ottawa, Mar. 6.—"We've only had it for force about a month and we have still to make our first assessment under the system, but it's going to be a success all right."

The statement was that of Premier Sifton, of Alberta, and he was referring to the principle of land taxation which was embodied in a recent bill put through the Alberta house. Premier Sifton was here till this afternoon when he went to Montreal. He declined any further comment in the capital, stating that he was here on route from Toronto.

"How is the Alberta and Great Waterways bond case progressing?"

"It will be up before the full court of Alberta next month and we expect to see the whole case settled there."

"Do you expect to win it?"

"No, of course, we're only doing it for our health. Seriously, however, we have done up to the ultimate outcome of the case."

Premier Sifton then went on to speak of land values in Alberta, which he characterized as something as the success of which were could no longer be any doubt. Even previous to the passing of the general legislation the principle was already in force in a number of municipalities. In fact, Alberta towns and cities, in enforcement in most cases being gradual, the tax was being taken on improvements and placed on the land until the tax on improvements would be wiped out altogether.

### CANADA MUST LOOK TO UNITED STATES

In Event of Japanese Attack on Canadian Pacific Coast Great Britain Could Not Send Fleet to Our Defense on Account of the German Menace.

Newcastle, Eng., Mar. 6.—Speaking here yesterday, Earl Percy, former under secretary for foreign affairs, discussed Japanese supremacy in the Pacific, saying that the position was delicate for Japan's immigration had been restricted by the United States and our own Overseas Dominion, which she might resent, therefore, the defensive resources of the empire should be concentrated. If we had not fleet units on the Canadian Pacific coast, Canada, if attacked by the Japanese, could only be saved by the United States for on account of the German menace we were unable to do anything in the Pacific. The British line of battle ships were required in home waters.

### ATTEMPTED HOLD-UP IN OTTAWA

Montreal Man Used Revolver on Officer Boy in Real Estate Office.

Ottawa, Mar. 6.—A man walked into the office of Donald Fraser, real estate agent, on O'Connor street, today, and pointed a revolver at the 15-year-old office boy and demanded the contents of the safe. This happened on the morning before the man had walked into the office to ask a \$10 loan. The boy opened the safe and rushed out for assistance, which he got in time to get back and overpower the hold-up man and take him to the police station.

He was then given over to the police. The man handed the office boy a letter, saying he was forced to do so, and signed it "H. W. Watson, Montreal." The letter had been given to the police. Just before the hold-up the real estate man had taken \$250 from the safe and had gone to lunch.

### MISSIONARY TALKS OF HUDSON BAY ROUTE

Rev. Mr. Palmer, York Factory, Tells of Conditions in Territories—Discusses That They Will be Open for Navigation For Four Months Each Year.

Montreal, Mar. 6.—Rev. Mr. Palmer, Anglican missionary to the Indian and Eskimo in Hudson Bay, is in the city with his wife, and is the guest of the Rev. Canon Gifford. He is returning to his post as soon as navigation opens on the river route.

The building of the proposed railway to Hudson Bay will not be a very difficult matter, Mr. Palmer said, in the opinion of the other hand, was a matter of a little difficulty. The building of the railway is generally referred to as widespread stretches of muskeg is really level land with a good bottom, and a little draining will obviate all difficulty from water.

On the other hand, was a matter of a little difficulty. The building of the railway is generally referred to as widespread stretches of muskeg is really level land with a good bottom, and a little draining will obviate all difficulty from water.

Keep Your Eye on BALDWIN BROS' WINDOW

For a Real Estate Bargain

Commencing March 8th, 1912

Our Address, 236 Jasper West

Our Phone, 2337

## Announcement !!

We take pleasure in announcing that on March 11th, we will move into our new offices on the ground floor of the Sheppard Building, 80 Whyte Ave., which we have recently purchased from W. H. Sheppard.

The expenditure of \$30,000 for this building was made necessary by the rapidly increasing volume of our business.

We will now have one of the best Real Estate offices in Western Canada and will be in a position to serve the interests of our clients better than ever before.

Watch Friday and Saturday papers for our Grand Offering.

**The Phillips-Latimer Co.**  
Phone 3443.

## ANOTHER VICTIM OF BITTER FUED BETWEEN BOYCE-SNEED FAMILIES

Father of J. B. Sneed is Shot Dead at Georgetown, Texas By One of His Tenants.

### THE ASSASSIN THEN COMMITTED SUICIDE

Young Boyce, Who Eloped With Daughter-in-Law of Victim, is in Alberta.

Georgetown, Texas, Mar. 6.—John T. Sneed was killed here today by one of his tenants R. O. Hilliard. The assassin killed himself. He left a note saying for revenge, John T. Sneed was the father of John Boyd Sneed. The latter recently was on trial for the killing of Captain A. G. Boyce. It is thought today's killing was a direct result of the Boyce-Sneed feud.

Hilliard met the head of the Sneed family in front of the post office. He opened fire, killing Sneed immediately. Sneed was a direct descendant of the family which killed himself. He had a note saying Sneed had been treated him and that he intended to kill him.

At first it was believed the slayer was a member of the Boyce family and it was said A. G. Boyce, whose opponent with John Boyd Sneed was the feud, had been shot.

The mistake was soon discovered. It is believed young Boyce is still in Alberta, where he was with Mrs. Sneed.

### DR. GRENFEIL TO VISIT EDMONTON NEXT WEEK

Famous Labrador Missionary Will Speak in Methodist Church Auditorium on Tuesday, March 12, on the Ancestry of the V. M. C. A.

Dr. Wilfred Grenfell, the Labrador missionary, whose work in the Deep Sea Fisheries and in the coast of Labrador, is the subject of the greatest interest to the people of America and the world at large.

At the present time touring the west under the auspices of the V. M. C. A. Next week, Dr. Grenfell will speak in Edmonton. His first visit here is March 12, and the place the Methodist church auditorium.

Dr. Grenfell is one of the foremost writers and lecturers on the continent, and besides being a brilliant orator, he has a story to tell of extraordinary interest. No mission, he has a great work to do that Dr. Grenfell, and he has done it with such splendid success that he has attracted and merited the support of wide interest in America and England.

Calgary Bell Boy Injured. Calgary, Mar. 6.—As a result of injuries sustained on a fall from a third story window in the Hotel Edwards hotel, W. Conlin, a bell boy, lies in a precarious condition.

Mine's Demands Reduced. New York, March 6.—The fact of the reduction of the demands of the anthracite miners by the coal operators is expected to be followed by the submission of modified demands by the miners. The mine workers had expected the demands would be refused, but that the operators would offer counter proposals.

### British Investors Turn Down Canadian Government and Vancouver City Loans.

Canadian Associated Press.

London, Mar. 6.—A fresh sign of the times is that neither the new Canadian government loan of five million pounds nor the Vancouver City loan of one million, have been run after here. The Vancouver issue may be described as a fiasco, ninety per cent. being left on the city's hands.

Of the government loan, the public took but thirty-five per cent. The strike may have affected this result to a small extent, but it is clear that neither loan would have been over-subscribed. Both of these borrowers may consider themselves fortunate in having secured such favorable terms under most trying conditions.

The market position here is unusually sound, but the number of investors in high-class securities, such as that of the Canadian government, is steadily diminishing, while as regards Canadian municipalities, the outcome of the Vancouver issue is proof that lower prices are demanded.

It is well known here that Toronto, Montreal, Winnipeg, etc., must borrow in the near future, and it seems clear that Vancouver, which came first, will have fared relatively the best.

### OTHER UNIONS ARE BEGINNING TO OBJECT

Workmen Affected by Coal Strike Are Not so Sympathetic as They Were—Miners and Operators Are Continuing Negotiations.

London, Mar. 6.—Any trades union who has a sentimental sympathy with the miners are attacking themselves now for funds, and their action is giving way to more material considerations. As various industries are being crippled and closed down for want of coal, the executive of other unions are being compelled to hand out funds to their unemployed and those leaders regard this as a very serious matter.

"It is all very well for the miners," said one of them today, "but our own union funds will soon be low white." The normal weekly unemployment of the unemployed members of the Amalgamated Carriers Union of their organization is \$5,000. For four days it has jumped up to \$15,000 per week.

A Helpful Sign. London, Mar. 6.—The continued strike of the dockworkers in the coal strike are interpreted as indicating a growing desire of both parties to find a way out of the difficulty. With the formal reports issued do not give evidence of material relief of the tension there is an increasing belief that the executive committee of the Miners Association have received a written mandate from the men during the week-end empowering them to negotiate with the government on the minimum wage schedule.

### GERMANY'S NAVAL PROGRAM IS READY.

Berlin, Mar. 6.—The new naval and military bills to be discussed by the Reichstag at this session have completely been drafted and will be presented to the Federal Council. The article in the Lokal Anzeiger, today, provides for the construction of three additional battleships and two small cruisers during the next three years. The building of five further reserve battleships to form a new active squadron of eight battleships is also to be accelerated.

Will Not Speak At Debate. London, March 6.—The Premier Asquith would speak at Dublin during the Easter recess on home rule was officially contradicted today.

### DEPARTMENT SHOWS A SURPLUS OF \$18,000

January Report of Electric Light Department Shows Substantial Income, but It Is Explained It Is Not to Be Taken as an Average Month.

Substantial increase was made in the receipts of the electric light department in January over the corresponding month of 1911, according to a supplemental report filed by the city commissioners. After allowing for discounts, the net revenue derived was \$17,735.81, while for January, last year, it amounted to \$15,495.42.

The report shows the following receipts for the last wintering-out campaign in January of the present year: Private lighting, per meter, \$10,740.31; power sales per meter, \$2,835.55; street lighting, \$1,414.99; miscellaneous, \$595.21.

Expenditures for the month totaled as follows: Power purchased, \$15,013.29; operating charges, \$1,747.89; maintenance, \$2,614.64; interest and redemption, \$1,150.60, making a total of \$15,146.32.

### RUNSTAN ARMY SCANDAL

\$20,000,000 Embarked in Russo-Japanese War. St. Petersburg, Mar. 6.—A scandal which will eclipse all others growing out of the conduct of the war with Japan was predicted today, following the announcement of the cabinet board that huge sums advanced to the army had not been accounted for.

The announcement of the cabinet board that huge sums advanced to the army had not been accounted for, has caused a great deal of speculation as to the whereabouts of the money.

The authorities promise a rigorous investigation, and men high in civil and military affairs will probably be implicated.

Will Not Speak At Debate. London, March 6.—The Premier Asquith would speak at Dublin during the Easter recess on home rule was officially contradicted today.

### SO EASY TO CLEAN PANS THE RIGHT WAY.

They were talking housekeeping. One said: "I don't see how you can scrub pans with soap, but it takes so long and it takes so much soap." Another said: "Why can't you use a little SNAP? It's so easy to use. It takes only a few minutes and it takes very little soap. I scrub my pans with SNAP and I don't need any soap." "I think too much of my hands," said the first.

Will Muster Enough Votes To Carry Arbitration Through United States Senate.

Washington, D.C., March 6.—By night fall the arbitration treaties between Britain and France may be ratified by the Senate which continued their consideration today in legislative day of March 6th.

The Senators who have been carefully considering the situation, almost ever since the treaties were submitted to the Senate early last August, asserted they expected to muster the necessary two-thirds vote for ratifying the treaties.

With that chance maintained the main fight would be on the lodge ratification of ratification which would interpret the treaties as a condition of the Senate's full treaty-making prerogative.

London, Mar. 6.—Queen Alexandra, who has been ill with influenza for several weeks, is not progressing as rapidly toward convalescence as her physician expected. Discouraging rumors here say her condition is very serious.

Heavy Gate in Channel.  
London, Mar. 6.—A tremendous gate raised yesterday in the English Channel. All ships were down and telegraphic communication between Portland and the continent was completely cut off until late last night, when it was restored and business resumed.

Left Child on Door Step.  
Berlin, March 5.—A well developed two-month-old baby was found yesterday on a door step on a Friedrich street, and is now in charge of the Children's Aid Society. It is believed that the mother, who was arrested last night, was the mother of the child. The child was found in a state of starvation and was given a new name, and was sent to the Children's Aid Society.

Allied Printers Meet.  
Toronto, Ont., Mar. 6.—At the United Press the board of directors of the allied printing trade union of the United States and Canada met here today. The board is expected to return for a new agreement in June will be given consideration.
